EXPERIENCE

Project responsibility has included managing engagements ranging in size from 150 to 10,000 hours, including the completion of all documentation, work papers, and reporting.

Significant engagements include:

- Providing expert testimony and other dispute resolution services, investigatory services, and arbitration and mediation services for situations involving damages, analysis of fraud, business and economic valuations, joint venture and partnership disputes, business divorce, infringement damages and valuations, disciplinary actions relating to misuse of attorneys' trust funds, financial statements, opportunity cost of stay of foreclosure, litigation services standard of care, accounting procedures and practices, business processes and practices, etc.

Page 2

- Industry experience includes manufacturing, services, distribution, energy, real estate, environmental, retailing, telecommunications, health care, professional services, technology, gaming, and hospitality.
- Managing engagements assisting major banks and their Counsel relating to bankruptcy and reorganization evaluations in connection with non-performing loans.
- Performing due diligence reviews related to potential acquisitions or loans for potential buyers or lenders. Industries involved include oil and gas exploration and production, retail office furniture sales and office design services, pipeline operation and design and refining and transportation of oil and related products.
- Tracking, categorizing and accumulating costs associated with the operation and clean-up of a Super Fund site from 1966 until the present.
- Analyzing economic losses relating to personal injury, wrongful death and wrongful termination claims.
- Assessing lost profits claimed in a lender's liability suit against a major savings and loan.
- Providing litigation support and expert testimony in an anti-trust case involving calculations of damages based on investigatory procedures and statistical sampling.
- Managing distributions of a class action settlement fund of \$23 million to approximately 200,000 claimants.
- Analyzing impact on results of operations where equipment purchased and installed was alleged to be defective or inappropriately engineered and damages were claimed. For all engagements, analysis included review of impact on overall operations as well as review of the alleged damages.
- Managing audit of federal and Indian oil and gas royalty settlements by an international oil and gas producer.
- Participating in an extensive study related to the feasibility of building a manufacturing facility to utilize a by-product.
- Managing the audit of a large specialty manufacturer and fabricator with multi-state operations.

Page 3

- Managing the audit of a small exploration and production company that encompassed all financial records since the company's inception five years earlier.
